

FOR IMMEDIATE RELEASE

Sylvin Technologies Inc. Rebrands as an Orbia Polymer Solutions Business

BOSTON, February 5, 2024 – Sylvin Technologies Inc., a leader in vinyl compound development, proudly announces a significant milestone in its journey. Effective February 5, 2024, the company will merge with Orbia Polymer Solutions (Alphagary) to reflect its ownership and integration within the Orbia portfolio of businesses.

Sylvin Technologies Inc. was acquired by Orbia Polymer Solutions (Alphagary) in 2018, strengthening the business' expertise in PVC compound application development. While the legal name, Sylvin Technologies Inc., will remain unchanged, the rebranding reflects a strategic alignment with the broader vision and goals of Orbia.

Santiago Urbina, Vice President of Commercial Sales for Orbia Polymer Solutions (Alphagary), emphasized, "The Sylvin business has built a solid, reputable business over decades by working closely with their customers and providing value-added solutions. This customer-centric focus on material development is the cornerstone to staying in tune with our customers at Orbia and bringing next-generation technologies forward."

Chris O'Connell, Sales Manager, Industrial Market, for Orbia Polymer Solutions (Alphagary), sees the power of the combined product portfolio and manufacturing assets as growth opportunities. "Our combined capabilities and solutions will add new value in the specialty compound market space."

Gautam Nivarthi, President of Orbia Polymer Solutions (Alphagary), expressed confidence in the shared values of Orbia's compounds businesses. "Since its acquisition, the Sylvin business has embraced Orbia's core values of embracing diversity and having an owners' mindset to work responsibly and with courage. We will continue to invest in this growth business to create a better future for and with our customers."

Nivarthi continued, "With manufacturing operations in the United States, United Kingdom, Mexico, Colombia, and India, all of us in Orbia Polymer Solutions (Alphagary) look forward to delivering even greater value through realized synergies."

About Orbia

Orbia Advance Corporation, S.A.B. de C.V. (BMV: ORBIA*) is a company driven by a shared purpose: to advance life around the world. Orbia operates in the Polymer Solutions (Vestolit and Alphagary), Building and Infrastructure (Wavin), Precision Agriculture (Netafim), Connectivity Solutions (Dura-Line) and Fluor & Energy Materials (Koura) sectors. The five Orbia business groups have a collective focus on expanding access to health and well-being, reinventing the future of cities and homes, ensuring food, water and sanitation security, connecting communities to information and enabling the energy transition with basic and advanced materials, specialty products and innovative solutions. Orbia has a global team of over 24,000 employees, commercial activities in more than 100 countries and operations in over 50, with global headquarters in Boston, Mexico City, Amsterdam and Tel Aviv. The company generated \$9.6 billion in revenue in 2022. To learn more, visit: orbia.com

About Orbia Polymer Solutions (Alphagary)

Orbia's Polymer Solutions business Alphagary is a global leader in the design and manufacture of specialty polymer compounds and additives for polyvinyl chloride formulations including stabilizers, plasticizers and colorants. Compounds are generated from a variety of polymers including polyvinyl chloride (PVC), polyolefin (PO), thermoplastic polyurethane (TPU) and thermoplastic elastomer (TPE). With over 60 years of experience, Orbia Polymer Solutions (Alphagary) has earned its reputation for providing innovative, functional, durable solutions to a broad marketplace. Orbia Polymer Solutions (Alphagary) is committed to offering sustainable products formulated with bio-based and recycled content and actively participates in initiatives that promote a circular economy. Its compounds are trusted for a wide range of applications from data communications and power cables to various building and industrial products, automotive interior parts, a wide variety of consumer goods including food-contact applications and healthcare products. Orbia Polymer Solutions (Alphagary) offers standard and custom formulations to meet market-specific requirements and end users' needs and is committed to health and safety best practices by maintaining ISO 9001, ISO 14001 and OHS ISO 45001 certifications. Orbia Polymer Solutions (Alphagary) has 1,000 employees across nine facilities across the U.S., UK, Mexico, Colombia and India, serving 80 countries through a global sales and distribution network.
